Experience:

Software Developer   **June 2017 – February 2021**
State Farm, Bloomington IL
- Instructed 67 State Farm development teams on their platform migration to one of Pivotal Cloud Foundry or AWS, with a focus on cloud native application design
- Updated/maintained a proprietary insurance license management system that integrates with the National Insurance Producer Registry and serves ~140,000 users
- Developed an application to automate a test environment provisioning process, shortening it from 8-12 weeks to 48 hours, on an Agile team utilizing Scrum and CI/CD practices
- Volunteered as a mentor for courses which taught 40 State Farm employees enough HTML, CSS, jQuery, and Bootstrap to prototype their own web applications
- Researched, deployed, and released an open source Q&A tool to Kubernetes to provide a channel for development and platform migration support

Senior Technical Consultant   **August 2016 – May 2017**
Millikin University Performance Consulting, Decatur IL
- Co-founded a student-run IT consulting company serving 8 local businesses in its first year
- Co-managed 9 consultants during project work and client meetings
- Researched, configured, and installed a timeclock application, including user documentation, for a family owned and operated farm
- Updated the rules and design of a Microsoft Access database based on the requirements of the Department of Housing and Urban Development, reducing the total time of Decatur's Point-in-Time count from 6 days to 6 hours

Software Developer (Internship)   **May 2016 – August 2016**
State Farm, Bloomington IL

Certifications/Skills:

AWS Certified Cloud Practitioner   **November 21, 2019**
AWS Certified Solutions Architect – Associate   **March 06, 2020**
